POWER OUTAGE SAFETY LIGHTBULB

Turns ON & OFF even when power is lost!

Sleek and elegant design

Uninterrupted Light Systems®

THE BEST DAILY-USE RECHARGEABLE LED LIGHT BULB FOR HOME & BUSINESS

America's most trusted rechargeable lights for home, our patented power sensing technology is packed full of the most important features any bulb has to offer – so that you can have peace of mind, feel safe and be in control in the event of power outages without fumbling in the dark!

- Works like a normal light bulb
- Saves you 90% on energy bill from a 60W bulb
- Provides safe illumination during power outages
- Built-in self rechargeable system with a battery
- Easy to Install just like changing a light bulb
- Efficient sensor system holds its charge
- Bonus 3hrs flashlight with press of button

**BACKUP LIGHT ON DEMAND
JUST FLIP YOUR SWITCH**

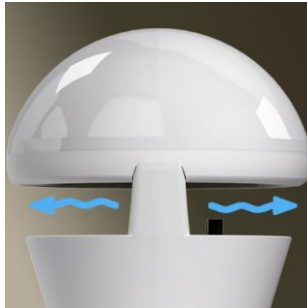

Why is Safelumin different?

COMPATIBLE: LED & CFL

NON-COMPATIBLE: FAN & INCANDESCENT & HALOGEN

Patented Air Gap

Patented air-gap technology keeps the battery cool for longevity.

Test Battery & Flashlight

Hold 3sec to test battery level. Or press ON/OFF for flashlight. The only battery operated bulb that lets you do both.

Retrofit A19 Size

Adding a battery, outage sensor and air-gap doesn't mean bigger and bulkier. We push the limit to keep an A19 size bulb.

Compatibility

Works with up to 12 LED & CFL bulbs on the same switch but not incandescents, halogens, or fans.

What's in the box:

Includes Everything You Need

Specifications:

- Available Color 2700K/3000K/4000K/5000K
- Daily use light: 800 lumens
- Power outage: 120 lumens (up to 3 hours battery run time)
- Rating: AC120V 60Hz 6.5W Non-Charging / 7.5W Charging
- Bulb life: 25,000 hours
- Battery: Lithium 3.7V 850mAh
- Certificate: UL, cUL, CE + CB, RoHS, FCC, MSDS
